

FALKNER HOUSE: CURRICULUM OVERVIEW COMBINED

2023/2024	RECEPTION	Y1	Y2	Y3
ENGLISH	Reading, poetry, exposure to a wide range of literature including fairy tales and poems, phonic work (supported by Read, Write, Inc), simple composition, sentence construction, full stops, capital letters, handwriting, drama, speaking and listening.	Reading, poetry, creative writing, writing instructions, dictation, spelling, phonic work, sentence construction, grammar and punctuation, handwriting, initial, middle and final blends, speaking and listening, set texts including fiction & non-fiction, aural comprehension, library and drama.	Reading, poetry, comprehension, creative writing, sentence construction, dictation, spelling, phonic work, grammar and punctuation, handwriting, library and drama.	Reading, poetry, comprehension, creative writing, spelling, grammar and punctuation, handwriting, dictation, library and drama.
MATHS	<p>Number - recognising, writing, ordering and counting up and back to 10 and 30. Counting reliably and in different contexts. Using numicon to find number patterns - odd/even numbers up to 10/ over 10, ordinal numbers, 1 more/1 less, doubling and halving numbers under 10 and up to 20. Introducing place value with tens and ones. Counting aloud in ones, twos fives and tens without using multiplication. Using language to compare numbers: bigger, smaller, more, less. Partitioning numbers to lead to simple Addition and Subtraction with two 1 digit numbers and a 2 digit number - practical and written number sentences and oral word problems, sharing, number bonds to 10 and 20. Using a numberline, introducing the inverse through number families, using the inverse for missing number problems. Money - recognising the value of UK coins and notes, using numicon to add 1p, 2p and 5p and higher value coins. Shape and space - positional language, recognise and draw 2D shapes, halving shapes, patterns, introduce 3D shapes, symmetry, corners. Measurement - weight, capacity, length. Using vocabulary - greater, bigger, smaller heavier and lighter to compare quantities. Practical work using standard and non-standard units, using a ruler and a balance, reading scales. Time - order and sequence events and measure short periods of time using non-standard units. Read the time to the hour and half past, quarter past/ quarter to. Understanding seasons, months, days, weeks and years. Data - collecting and interpreting data, tally charts, pictograms and drawing bar charts.</p>	<p>Number - odd and even (investigative work adding odds and evens) , estimating, counting, patterns. Place Value – two digit up to 3-digit Addition and Subtraction – doubles, near doubles, halving, number bonds to 10 and 20, 50, 100, 10 more/less, 1 more/less, inverse, adding and subtracting one digit and two-digit, three-digit, numbers and crossing tens/ hundreds. Multiplication and Division – repeated addition/subtraction, making groups and sharing, counting in twos, threes, fives & tens, using the inverse. Money- operations using coins & notes. Time - telling the time quarterly, telling the time to five minutes and adding/subtracting time, plus understanding about days, months and seasons. Statistics - tally charts, venn diagrams, pictograms and block diagrams. Fractions – recognising halves, quarters, thirds, finding a fraction of an amount. Properties of shapes - 2D and 3D including looking at lines of symmetry, recognising right angles. Position and Direction - describing turns, movement, compass. Measurement - using non-standard units at first and then using standard units in length and height, mass, capacity, reading scales. Problem solving – developing problem solving skills.</p>	<p>Place Value to three digits,(with an understanding of the relationship between the ones, tens and hundreds columns) Addition and Subtraction - adding and subtracting a two digit number to/from a one digit number and crossing ten (adding and subtracting three digit numbers using a variety of methods and showing understanding of the carrying and exchanging involved when using a formal column method) Multiplication and Division including counting in twos, fives, tens, threes, fours and sixes (the ability to understand the process of multiplication and division and apply knowledge to worded problems as necessary/to multiply a two digit number by a one digit number/to understand what is happening when objects are grouped or shared in relation to division/to recognise factors and multiples of a number/to have a good understanding that multiplication is repeated addition) Money (all four) operations using coins and notes Time - telling the time to five minutes plus understanding about days, months and years (converting hours to minutes and minutes to hours/using a timeline to find durations of time) Statistics - tally charts, pictograms and block diagrams. Fractions - finding halves, quarters and thirds and counting in fractions (finding fractions of amounts, comparing unit and non-unit fractions) Properties of shapes - 2D and 3D including looking at lines of symmetry (recognising nets of 3D shapes, identifying lines of symmetry in irregular and regular 2D shapes,recognising right angles) Position and Direction - describing turns and movement (recognising right angled turns) Measurement - using standard units in length and height, mass, capacity and temperature (and know which unit of measurement to choose)</p>	<p>Place value: 3 digitso (to to 4 and 5 digits; rounding to nearest 10 and 100 Addition and Subtraction: adding and subtracting numbers up to 3 digitsr, (to 4) using mental strategies and formal written methods where appropriate; estimating and using the inverse to check answers Multiplication and Division: recall and use facts for 2x, 3x, 4x, 5x, 6x, 7x, 8x, 9x and 10x multiplication tables including two-digit numbers times one-digit numbers using mental and formal written methods Money: add and subtract amounts to give change Time: analogue and digital (12 hour and 24 hour) to the nearest minute and compare durations of events; understand about seconds, days, months, years Fractions: recognise, find and write unit fractions and non-unit fractions of shape and number; count up and down in tenths; add and subtract fractions with the same denominator Algebra: missing number problems Using Measure: measure, compare, add and subtract lengths, mass and volume/capacity, perimeter Shape: draw, make and name 2D and 3D shape Angle: recognise as property of shape or a description of a turn; identify right angles, horizontal, vertical., perpendicular and parallel lines Statistics: use of bar charts, pictograms and tables to solve problems Problem solving: one and two step (three step)</p>
IT			PowerPoint, illustration techniques, audio recording, programming, animation, iMovie, use of templates and formatting.	Research techniques, PowerPoint, illustration, manipulation of tables and images within documents, video creation, animation using Scratch.
SCIENCE	<p>Space - planets Growth including life cycles London including the Underground, landmarks and transport Everyday materials Fruit and vegetables Natural World</p>	<p>The Body senses Environments - Polar Places - Polar region and animals, classification, properties of materials Animal study - observing animals closely, comparing, identifying and classifying. Invertebrates</p>	<p>Materials –, exploring, testing and comparing various materials Space Electricity - Battery vs mains power, safety, simple circuits Animal study – endangered species, zoos</p>	<p>Materials –rocks, soils and fossils Properties and uses of rocks, rock families, soils and fossils. Light and Shadows - light sources, darkness, shadows and reflections Forces, Magnets and Springs Plants Parts of plants, germination, water transport, flowers and seeds - helping them grow Animal study – birds</p>
HISTORY		Ice Explorers The Ancient Greeks Inventors	Early Britain (includes Romans) Explorers The Plague and Great Fire Egyptians British royalty - Charles 1 11 and 111 - coronations and royal regalia and facts.	Romans Victorians Anglo Saxons and Vikings Aztecs
GEOGRAPHY		Oceans and Seas UK Weather and Climate	Rivers Rainforests Earthquakes, volcanoes Worldle - countries, capitals and flags. Seven Wonders of the world – ancient, natural, modern	Earthquakes, volcanoes Scandinavian Country North America including central America and Mexico Countries and cultures round the world Rainforests The World: how land masses were formed (plates etc) Glaciers and fjords
ART	Painting, drawing, clay, scissor manipulation, model making, use of various media and colour. DT - cross curricula linkage with use of various construction kits, design, planning and making models.	Cross curricular linkage with painting, clay, scissor manipulation, model making, use of various media, collage, free design, planning and sewing.	Cross curricula linkage with painting, clay, colour, understanding of paints, design, building and planning models, joining and combining materials, cutting, photography and sewing.	Cross curricula linkage with painting, collage, 3D-work, pattern design and texture, clay and photography and simple construction.
HISTORY OF ART	Different topic / artist / painting each week / half term			

RE	<p>Bible stories: Jonah, Noah, Good Samaritan, David and Goliath, Lazarus</p> <p>Festivals: Divali, Christmas, Easter</p>	<p>Festivals: Rosh Hasanah, Yom Kippur, Harvest, Halloween, Divali, Advent, Hanukkah, Christmas, Epiphany, Lunar New Year, Candlemas, Holi, St Patrick's Day, Lent, Easter. Ramadan and Eid</p> <p>Bible stories: Joseph, Walls of Jericho, Saul on road to Damascus,</p> <p>Parables The Sower The Mustard seed The Good Samaritan The lost sheep The lost coin Prodigal son The hidden treasure The Great pearl The growing seed</p> <p>Pilgrimages.</p>	<p>Identifying places of worship in locality – church, mosque, synagogue, mandir</p> <p>Features of a church: bells, font, altar, features of Westminster Abbey (Tomb of Unknown Soldier etc.)</p> <p>Cordoba - Features of Mezquita</p> <p>Festivals: Lunar New Year, Passover Ash Wednesday, Lent, Maundy Thursday, Easter, Passover, Pentecost, Ascension Day</p> <p>Saints</p> <p>Bible: The Resurrection , The Apostles (Paul and Paul), Tower of Babel (Zacheus), Stories of the Kings, David and link to Psalms, Marriage feast of Cana, John the Baptist - Baptism of Jesus, Adam and Eve, Abraham and Isaac, Ruth and Naomi, Elijah and Eliaha Babylon – Daniel and the lions den, Exodus (links with Rameses II)</p>	<p>Islam (birth of Islam, 5 pillars, prayers, Hajj, Ramadan)</p> <p>Religious stories through Art 10 Commandments, Golden Calf, One God v. many (Az. tecs/ Hindus) Joseph and the plagues</p> <p>Festivals Palm Sunday, Easter – cock crowing – importance of loyalty Christmas – wise men – journey to Egypt Persecutions -</p>
RELATIONSHIPS PSHEE and CITIZENSHIP	Looking after and managing ourselves, how we feel, good relationships, dealing with disappointment, my family, being a good friend, safety, where do I come from, passports, becoming an active and good citizen.			
MUSIC	Introduction to basic theory such as a bar, beat or pulse Introducing musical phrases. Build and develop a sense of pulse and pitch through using chimes, percussion instruments, dancing and movement to the beat and through learning songs from different culture and backgrounds.			
	Encouraging confident performing through singing, dancing and playing class instruments. Finding their “best voice” in listening to the quality of pitch and learning more and more to sing in tune in preparation for school concerts and events. Introducing children to Baroque composers as well as the relevant repertoire, genre and instruments through listening exercises and interactive stories. Establishing the ability to differentiate pitch, identify between rhythms, musical dynamics and some introductory italian terminology.	Encouraging confident performing through singing, dancing and playing class instruments. Finding their “best voice” in listening to the quality of pitch and learning more and more to sing in tune in preparation for school concerts and events. Introducing children to Classical composers as well as the relevant repertoire, genre and instruments through listening exercises and interactive stories. A module on the instruments and sections of a Western classical orchestra. Continue to strengthen aural skills in differentiating between pitch, new rhythms and dynamics.	Build on music theory e.g dynamics and introduce more musical terms. Play songs from various backgrounds with their instruments (violin, viola, cello, piano, recorder etc.). Encouraging confident performing through singing, dancing and playing class instruments. Finding their “best voice” in listening to the quality of pitch and learning more and more to sing in tune in preparation for school concerts and events. Introducing children to Romantic composers as well as the relevant repertoire, genre and instruments through listening exercises and interactive stories. An in depth module on Opera and Musicals. Continue to strengthen aural skills in differentiating between pitch, new rhythms and dynamics.	Build on music theory e.g., drone, ostinato etc. and possibly key signature. Learn to imagine a story while listening to a piece of music. Encouraging confident performing through singing, dancing and playing class instruments. Finding their “best voice” in listening to the quality of pitch and learning more and more to sing in tune in preparation for school concerts and events. Introducing children to the History of World music module with a focus on Latin American music encompassing its influential genres and instruments. Continue to strengthen aural skills in differentiating between pitch, new rhythms and dynamics.
PE	Multi skills: whistle games, orientation, estimating & predicting, travelling large/small ball / striking skills Athletics Cross country Gymnastics Martial Arts Dance	Multi skills: whistle games, orientation, estimating & predicting, travelling large/small ball / striking skills Athletics Cross country Gymnastics Martial Arts Dance	Multi skills: whistle games, orientation, estimating & predicting, travelling large/small ball / striking skills Athletics Cross country Dance Gymnastics Martial Arts Rugby Football Cricket Swimming Dance	Multi skills: whistle games, orientation, estimating & predicting, travelling large/small ball / striking skills Athletics Cross country Dance Gymnastics Martial Arts Rugby Football Cricket Swimming Dance Netball
SPANISH				Introduction to Spanish
MYTHS AND LEGENDS	Introduction to myths and legends - mostly Greek and Roman and some Norse			Myths and Legends - Greek and Roman
REASONING	Verbal and non- reasoning			

The extent of coverage of the topics below will vary year by year

Burns Day	25th January
St Patrick's Day	17th March
St Georges Day	23rd April
Anzac Day	25th April
US Independence Day	4th July
Bastille Day	14th July
Guy Fawkes	5th November
Remembrance Day	11th November

Religious festivals: Eid, Divali, Chinese New Year, Passover, Yom Kippur, Lent, Easter and Christmas.
