## Duration of tournament:

1hr - 1hr 30 mins

When we had all arrived, we started our warm up. Unfortunately, since there were so many teams we had minimal space to practice. Mrs Gardner called us in and gave us our positions. We went around to all the teams and did rock paper scissors, we won 4 and lost 3. The coaches from Thomas' Clapham gathered us all and explained what was going to happen. We would be in 2 groups until the end where we would play the other group to finalise our ranking. The matches would be 10 mins one way. We were off first so we went to check out our station which had an array of crisps and my personal favourite the waffles. After, we went to scope out our competition and looked at the different matches that were going on. They rang the bell and it was time for us to get on court. Even though we didn't win our match I still think we played really well. It was a close game with the final score being 2-1 to the opposition. We kept on playing our matches with our heads held high and a positive mindset. As we finished our group matches they told us what place we would be playing for. 8th place! Although we came last we put up an excellent fight and made Falkner House proud. It was a really fun tournament and a privilege to play in it.

Thank you to Mrs Gardner and the PE team for organising this it was an amazing experience.
