

Falkner House vs Francis Holland

Year 5 were really excited to play our next netball match against Francis Holland. When we arrived at the park we warmed up.

When Francis Holland arrived we realised that they had only brought one team. We knew we would have to switch players in and out, and put on our best effort as a team. We played in thirds so all our teams could have a go.

The match started and Francis Holland's centre had possession with the first throw. They were very good in the first third, scoring lots of goals.

But in the second third we scored a goal! Shot by Alix G. We all cheered extremely loudly.

In the last third it was a Falkner House centre to start. But Francis Holland were extremely good at intercepting and scored a lot more goals.

At the end when the match was over we had had a lot of fun even though the final score was 7/1 to Francis Holland. The star players were Mia, because when she was centre she got the ball lots and was very quick, Alexandra because she was very good at intercepting, and Constance because she was really good at marking her player.
